

Multi-Layer Light Tower

Each light element can be mounted or replaced by user easily. No tool is necessary. Use of high-luminance LEDs (Light Emitting Diodes) to enhance the extra brightness for 05 series light tower. It can extend life-time of the operation so as to provide no requirement for maintenance.

Multi-Layer Light Tower

Φ 50 mm

214 – 215

Φ 70 mm

216 – 217

Linking your system

Features

- Size: Φ50mm, Φ70mm
- 5 stands selectable
- Long lifetime and brightness LEDs
- 360° view: excellent visibility with no block and no shadow
- Modular design for installation without tools
- Patent design for advancing brightness and easy installation
- The frequency of alarm: 60~80 times/min
- Buzzer volume: 100~120 dB/M
- Materials of construction: Layer-PC, lampshade-ABS , Stand-Al
- Materials in protection of corrosive
- Confirmative to CE
- Meets EEC RoHS Directive
- Protection rating: IP54, IP65

The meaning of colors

According to Machinery Directive IEC/EN 60204-1, the different colors of the light modular elements specify the meaning for the operating status. All selection of the colors are based on the demands of the user.

- Red**
Dangerous status - immediate action
- Yellow**
Abnormal status - in monitor or action
- Green**
Normal status - no action

- Blue**
Discontinuity status - action mandatory
- White**
Other status - can be identified by the user

Max. power

LED Light Module	0550 ultrabright	Red, Yellow	1.2W	Green, Blue, White	1.7W
	0550 standard	Red, Yellow	0.75W	Green, Blue, White	1W
	0570 ultrabright	Red, Yellow	1.7W	Green, Blue, White	2.3W
	0570 standrd	Red, Yellow	1W	Green, Blue, White	1.2W
Buzzer	0550buzzer	0.5W			
	0570buzzer	0.75W			

LED makes your products more competitive

Use of high-luminance LEDs (Light Emitting Diodes) to enhance the extra brightness for 05 series light tower. It can extend life-time of the operation so as to provide no requirement for maintenance.

Benefits of LED:

- Long life-time up to 50,000 hours
- Working in high-speed condition
- Anti-shock
- Durable and reliable
- Energy saving

Table of operating range

Db is the unit of Volumn, higher Db means louder volumn, if Db increases 10 each time, then volumn will be ten times than that of before. That is, volumn power of 20Db is ten times than that of 10Db, volumn power of 30Db is ten times than that of 20Db. If 10Db sent out by 10 sound source at the same time, then the power will be ten times than that of 10Db, that is 20Db.

Distance(m)	Level of sound dB(A)																				
	120	118	116	114	112	110	108	106	104	102	100	98	96	94	92	90	88	86	84	82

Examples of noise

Enviornmental noise comes from four sources 1. Noise Sent out from traffice vehicles. include automobile,train and plane 2. Factory noise. for example,blower, turbine,loom and punching machine 3. Construction noise, like pile driving engine, excavating machineand concrete mixer4.Social life noise, for example, noise sent out from high vouldmn horn, recorder.

Buzzer

Switchable Continuous/intermittent buzzer and adjustable volume up to 100~120dB at a distance of 1 meter which is more helpful for operators even in a noisy environment. The frequency of buzzer is 60~80 beeps per minute.

Switchable continuous/flashing light

Flashing light module can be switched by user manually to increase its agility and reduce your inventory.

Innovative 70mm buzzer with high volume

When using multi-layer light towers in the field with loud area or outdoors, customers express the demand of the buzzer with louder volume. ema develop an innovative $\Phi 70$ mm buzzer up to 120dB/M with voltage in 24VDC. This new model enhances the volume of buzzer extremely. Moreover, it can be installed in any position and there is no limit to be installed on the top of tower. This new feature provides customers with more flexible, convenient options on installation. The volume and the mode of signaling of this buzzer can be adjusted by a switch inside.

Wide input voltage

05 Series with DC voltage offer reversal polarity protection to secure your connection. A wide range rated voltage of 85~275VAC can support you in promotion of your system to worldwide.

Modular design

Each light element can be mounted or replaced by user easily. No tool is necessary.

Easy mounting

Easy and quick selections of mounting with integrated stands. Custom length of stand is available.

Easy installation

Thanks for modular design, the user can turn the light element slightly until it cannot move.

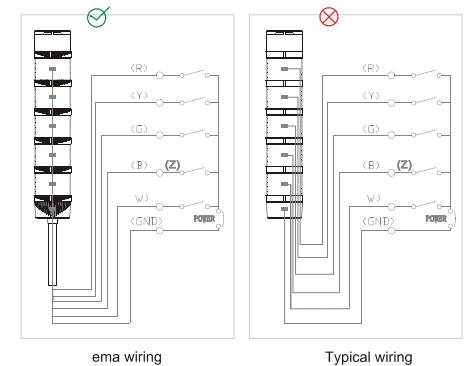

Align "♣" on lamp holder to "▲" on groove, wrest toward left to "♠", open the top cover of the stand.

Align "♣" on lamp shade to "▲" on groove, wrest toward right until hearing "click", and the mounting is finished.

Easy connection

No need to wire the cable from the top light element to the end. It is convenient to open the cap of stand for wiring – Save material cost and installation time.

- Long life-time and brightness LED lamp embedded
- Modular design for installation without tools
- Patent design for advancing brightness and easy installation
- Good looking and well practical stand
- The frequency of alarm: 60~80 times per minute
- Buzzer volume up to: 100 dB at 1meter
- Materials in protection of corrosive
- Protection rating: IP54, IP65

For the convenience of your inventory control and the alternation of accessories, you can choose themodule. Also it is unnecessary for you to buy the whole set of the product while the circuit or only certain light element is out of work .Our module design makes your inventory and maintenance expense lowest.
