# UCB1 Control Box Series

UCB1 control boxes are able to accommodate buttons with one level contact or signal lights directly, or act as normal junction boxes after installed with guide rails and terminals. UCB1 control boxes have six sizes, and can be divided into two series: top cover without hole and with 1-6 standard holes. The top cover color is gray (standard) or yellow (for customized product). UCB1 control boxes are tightly mounted on the base by self-tapping steel screws. The box body is fixed on the installation surface by two M4 screws.
